

PolarisCaretaker

Automatic In-Floor Cleaning System for all pools.

8-Port Valve (UltraFlex², VinylCare[®] Systems)

- Programmable, electronic controller allows customization
- More flow capacity than most valves on the market
- High efficiency port transitioning improves cleaning coverage
- Saves up to 50% on chemicals and 30% in heating costs
- Capacity for larger pools, more water features
- Smaller pump requirements

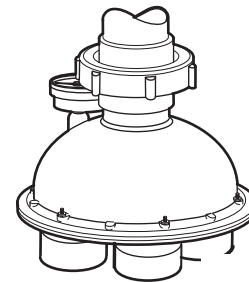

8-Port Valve

Programmable Controller

5-Port Valve (Caretaker[®], EnvironPool[®], Dust&Vac[®] Systems)

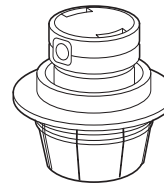

- Powered by the pressure of filtered water returning to the pool
- High performance, efficient circulation system
- Saves up to 50% on chemicals and 30% in heating costs
- Uses no electricity to operate

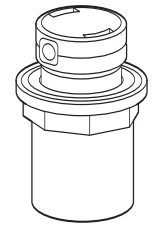

5-Port Valve

Cleaning Heads with Collars

- Standard** (7 colors: cream, black, gold, gray, blue, lt. gray, white)
- VinylCare** (3 colors: white, light blue, dark blue)
- High Flow** (cleaning head with factory-installed high flow nozzle)

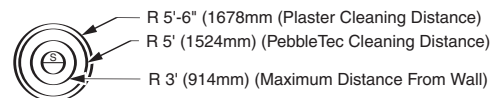

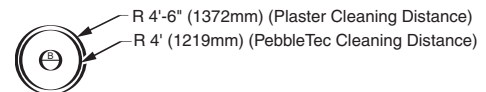

Head with UltraFlex Collar

Head with VinylCare Collar

Nozzles

- Mini** nozzles are used on small top steps, benches, beach entries or swimouts to avoid splash out:
GPM 5, LPM 19 for both valves.
- Step & Bench** nozzles are used on steps, benches, beach entries or swimouts to avoid splash out:
GPM 7, LPM 26 for both valves.
- Flow Adjust** nozzles are used to balance flows or increase cleaning on steps, benches and/ spas:
GPM 12, LPM 45 for both valves.
- Standard** nozzles are used on floors and occasionally steps, spas and benches to balance the flow or increase cleaning:
GPM 16, LPM 61 for 5-port. GPM 15, LPM 57 for 8-port.
- Flow Plus** nozzles are used when extra distance is needed in an area or when required to balance the flow rate:
GPM 25, LPM 95 for 5-port. GPM 19, LPM 72 for 8-port.
- High Flow** nozzles are used when maximum cleaning distance is needed or to balance flows:
GPM 30, LPM 114 for 5-port. GPM 25, LPM 95 for 8-port.
